

Frequently Asked Questions (FAQs) Scotchgard™ Paint Protection Film Pro Series

Q: What is Paint Protection Film and why do I need it?

A: Paint protection film, or "clear bra" as it is sometimes known, is one of the best ways to preserve the showroom quality finish on your vehicle. The tough, durable, virtually invisible urethane film will keep your vehicle looking newer longer, without changing the design features or color, by creating a barrier and protecting vulnerable areas such as front bumpers, hoods, side mirrors, door handle cavities, door edges, rocker panels, and rear fender panels. Preserving the finish of your vehicle with paint protection film (PPF) keeps your vehicle looking newer longer, and can enhance the resale value of your vehicle in the future.

Q: How does Scotchgard™ Paint Protection Film Pro Series compare to other paint protection films on the market today?

A: Scotchgard Pro Series construction provides many features, advantages and benefits over other films. In addition, when you buy film from 3M you know you are buying a recognized brand from a trusted company with staying power.

- Exceptional clarity: Scotchgard Pro Series has low orange peel, making it one of the clearest films in the industry and virtually invisible on the vehicle.
- Unrivaled stain and scratch resistance: The revolutionary clear coat technology produces exceptional stain and scratch resistance, making it easier to clean and harder to scratch, ensuring that it keeps the vehicle looking newer, longer.
- Self healing properties: Innovative technology allows minor scratches to disappear by themselves, keeping the film and your vehicle finish looking new.
- Excellent durability: The new formula for the Scotchgard Pro Series has superior resistance to yellowing and cracking, ensuring that your vehicle finish retains the showroom quality, color and design features.
- Maintenance Free: Scotchgard Pro Series film does not require any special maintenance to keep it looking great. You can wash and wax your car as you would normally. Visit our website at www.3m.com/paintprotectionfilm.com for additional tips for keeping your film looking its best.

Q: Where can I put Paint Protection Film on my vehicle?

A: Paint Protection Film can be professionally installed anywhere you want to protect your vehicle finish from scratches, chips, stains and other damaging elements. Scotchgard™ Paint Protection Film Pro Series protects:

- Rocker panels from sand and stones kicked up by tires
- Trunk ledges from golf clubs, luggage and strollers
- Hoods, bumpers and mirror backs from flying gravel, bug acids and tar
- Door handle cavities and door edges from rings, keys, belt buckles and purses
- Full hoods, trunks and roofs from bird droppings and tree sap

Q: Can I install Scotchgard Pro Series film myself?

A: 3M strongly recommends that Scotchgard film be installed by a 3M Certified Installer. They have the training and experience to make sure you receive an installation that is fit perfectly to your vehicle. In addition, the warranty is valid only if the film is installed by a Certified Installer.

Q: What is the warranty for Scotchgard™ Paint Protection Film Pro Series?

A: Our comprehensive warranty for Scotchgard Pro Series film is 7 years from the date of purchase, and includes coverage against defects, yellowing, bubbling and cracking. Visit our website at www.3m.com/paintprotectionfilm for more details and to see the full warranty disclosure.
