

3M™ Security Window Films & Attachment Systems

Forced Entry Protection

Fortify your windows with 3M™ Security Window Films & Attachment Systems to help deter criminals

- Windows are one of the weakest points on your building or home
- Provide precious time by helping to deter unwanted individuals from entering your building or home
- Provide added protection to property from smash and grab burglaries
- Helps protect your occupants from broken glass hazards
- Attachment systems anchor the film to the glass frame, providing additional protection if the glass is broken

2012 US Crime Statistics*

Property Crimes	Violent Crimes
Occur every 3.5 seconds	Occur every 26 seconds
Nearly 9 million occurrences	Over 1.2 million occurrences

*According to the Uniform Crime Report "Crime in the United States", 2012, completed by the US FBI.

Security Series

Protecting your loved ones at home

Alarm systems will tell you when someone has broken into your home, however, wouldn't it be better to keep intruders out of your home altogether? Recent testing has shown 3M Security Window Films & Attachment Systems can resist attack and deter an intruder for as long as two minutes.** This can give you valuable time to prepare and may discourage the intruder from entering altogether.

Protecting your assets at work

In 2012, over \$15 billion dollars were lost due to property related crimes.*** You need to display your merchandise next to your windows, but your windows are one of the weakest points of entry on your building. 3M Security Window Films & Attachment Systems will make it more difficult to get through your window, helping to reduce your losses during smash and grab crimes.

Protecting your loved ones at school

The glass on windows and doors of a school can be a vulnerable entry point into the building. Most schools do not have fortified glass to prevent shattering, resulting in potentially easy access through the window. We are proud to say that 3M Security Films & Attachment Systems have already been incorporated into hundreds of schools.

Security with a payback

Unlike many security upgrades, 3M Window Films can also provide a payback in as little as three years. 3M Security Window Films can include solar energy rejection, which helps reduce air conditioning costs, saving you money.

**Ref. ATI Break and Entry Test Report, C7770.01-201-44 dated 7/17/2013. Performance is highly dependent on numerous factors. Results will vary.
